In paper S. 207, the Senior Surgeon recommended the buildings at the Gold Fields being hired by Govt at Rs 80/- a month, to serve both for the purposes of the Hospital and of the residence of the Civil Surgeon. This was sanctioned in paper S. 1010. The Civil Surgeon states in his letter of the 23rd March 1901, to the Senior Surgeon that none of them is fit for his occupation.

~~2. Senior Surgeon's letter No 4/4/01~~ No 4353 of the 1st April 1901 recommending grant of Gold Fields allce to Mr C.S. Krishnasawamy Iyer, Civil Surgeon, is ~~hereby cancelled~~

GOVERNMENT OF MYSORE

Office Note.

By Government Notification No.1102/Mis.231-33 dated 24th July 1900, Mr.E.S. Krishnasami Iyer was promoted to the grade of Civil Surgeon and was appointed Medical officer of the Kolar Gold Fields. Before the latter part of the Order was carried out the Senior Surgeon was asked demi officially (21-7-900) whether there was hospital and house accommodation for a Civil Surgeon at the Gold Fields, and whether it would not be well to retain Mr Krishnasami Iyer at Bangalore ~~[illegible]~~ owing to the wave of malaria that was passing through that City

The acting Senior Surgeon (Major Smyth) replied demi-officially (26-7-900) that there was really no scope for Mr. Krishnasami Iyer to work on the Fields, that there was no hospital and no house he could call his own, and that the present requirements of the Fields were sufficiently well provided for by the present incumbent (Mr.Ranganna, Assistant Surgeon). He suggested that Mr. Krishnasami Iyer might work under the Civil Surgeon of Bangalore

and

and also perform such duties with the Head Quarters staff as might from time to time be required of him. Upon these papers it was noted both by the Secretary and by the Officiating Dewan that an official report would soon be received from the Senior Surgeon, No such report has yet been received. Meanwhile Mr. Krishnaswami Iyer has proceeded on other duty.

In his letter No.4003 dated 2 & No 1089 the Plague Commissioner reported that the Superintendent of the Plague Camp at the Kolar Gold Fields had to reside at Bowringpet owing to want of house accommodation at the Fields, and he suggested the erection of Quarters on the Fields for a Medical Officer as it was essential that a Medical man of some standing should be retained permanently on the Fields. The Officiating Dewan thereupon enquired whether it was the intention to erect two buildings, one for Mr. Ranganna, Assistant Surgeon and another for Mr. Krishnaswami Iyer Civil Surgeon. It was ordered that the reference might lie over until we hear from the Senior Surgeon.

2. The Senior Surgeon has now forwarded a plan and estimate for

12

for Rs.5650/- (prepared by the Superintending Engineer Eastern circle) for the construction of Quarters for the Medical Officer at the Kolar Gold Fields. They passed through the Plague Commissioner who requested the Senior Surgeon to submit it to Government for sanction.

Misl 12-99-5

From

THE PLAGUE COMMISSIONER IN MYSORE.

To The Secretary to the Government of Mysore
General and Revenue Departments

SIR,

I have the honor to state that it having become necessary to post a Plague officer for the Kolar Gold Fields for the efficient execution of Plague measures on the Gold Fields, Assistant Surgeon Mr. Rangauna, the Plague officer who had his Head Quarters at Bowringpet was ordered to move to Oori-kaum and was authorised, with the permission of the Chief Engineer, to occupy the Inspection lodge at Oori-kaum till Quarters were constructed for

for the Medical Officer appointed for the Gold Fields.

2. Subsequently in the month of September 1900 the Chief Engineer at the instance of the Executive Engineer Kolar Division requested that the Inspection Lodge which was badly wanted by the Executive Engineer might be made over to his Department and suggested that the Plague Officer might be provided with a tent or a temporary shed to live in till quarters proposed to be built for the Medical Officers were ready.

3. The Chief Engineer was again requested to allow the Plague Officer to Continue occupying the Inspection Lodge as originally arranged, as his permanent residence on the Gold Fields was necessary and he would be

be put to considerable inconvenience if he were made to live in a tent or a temporary shed.

4 The Superintending Engineer, Eastern Circle, now states that the P.W. Department has been put to very great inconvenience for want of accommodation at the Gold Fields and that if the building cannot be vacated by the Plague Officer a tent and a cooking pal with a lascar to look after the same, may be placed at his disposal.

5. I therefore request that you will be so good as to obtain the Sanction of Government to the entertainment of a lascar on Rs 7/- and for a tent and a cooking pal being placed at the disposal of the Chief Engineer till the new Quarters are constructed for the

the Medical Officer 38 at the Kolar Gold Fields, as no other building is available for the use of the Plague Officer.

6. I may add that the plan and estimate amounting to Rs 5,650/- for Cons. bungalow quarters for the Medical Officer to be stationed at the Gold Fields were forwarded to the Senior Surgeon and Sanitary Commissioner for submission to Government.

Dear Col Henson,

With your letter No. 309 P dated the 10th October last, you have sent to Govt a plan with estimate for the construction of Quarters for the Medical Officers to be stationed at the Kolar Gold Fields. The previous correspondence both official and demi-official, shows that a Civil Surgeon in the person of Mr. Krishnaswami Iyer stands posted to the Gold Fields but that he has not yet joined owing to want of accommodation, suitable hospital arrangements &c., and that an officer of the rank of an Asst Surgeon has been stationed in the Fields for some time past. During your absence on leave, Major Smyth had promised to submit proposals but I find on enquiry that none has yet been received. In the meantime I have before me the plan adverted to above. It does not show whether the building proposed to be constructed is for the present Asst Surgeon or for the future Civil Surgeon or for both. Kindly clear up this doubt. Are two officers proposed to be employed in the Fields or only one?

The favor of an early reply is requested.

Yours &c.

NO. 3288

Dated 7. February 1901

Sir,

You are doubtless aware that it has been under contemplation for sometime past to erect a Government Hospital at the Gold Fields, and for this purpose a suitable site was selected, and a plan drawn up, and Mr.E.S.Krishnasawmy Iyer was appointed as Civil Surgeon on Rs.400/- per mensem in June last, for the express purpose of being in charge of this Hospital, which owing to unforeseen circumstances has not yet been begun.

2. The population of the Gold Fields is estimated at 60,000 souls, of whom less than one-half belong to the Mines proper, and all that has been done so far by the Government in the way of affording Medical aid to the other half is to establish a Local Fund Dispensary for Out-patients with accomodation for two In-patients, in charge of a Hospital Assistant, the result being that a very large amount of Medical work which should legitimately be borne by Government has had to be done by the Medical Department of the various Mining Companies. This extra work they have been cheerfully doing, but the numbers are rapidly increasing that they find it impossible to attend to all cases and the Directors in England have, more than once, asked through their Superintending Medical Officer what medical arrangements the Durbar propose making.

3. As it is very unlikely that the Hospital and suitable Quarters for the Civil Surgeon can be completed before 18 months

have

have expired,and as the subject is a pressing one I wrote to Mr. Bullen the Superintendent of the Urigam Mines,asking him if he could let me have on a rental, some of the buildings owned by the Kempenkote Gold Mining Company. He replied to the effect that he had severed his connection with the Kempenkote Company,and added that from what he knew of the buildings referred to,they were not suitable for an Hospitaland that situated at the end of the Field as they were they were not sufficiently central and he added that Dr.O'Donnell the Superintending Medical Officer concurred with him. He at the same time said that there was a row of buildings belonging to his Company (Urigam) which he thought would answer the purpose, as they consisted of 11 rooms, each 12' X 12' with a front verandah, and a decent sized bath room behind and cook house at the back. There was also a house close by that would do for the Civil Surgeon as a residence. The rent he was receiving was Rs.60/- for the 11 rooms,and Rs.20/- for the house and that if Government would take them up with a view to establishing a Hospital there,until such time as the new Hospital was finished,he would be glad to let them have them at the same rent.I accordingly went down to the Gold Fields on the 3rd Instt and both Mr.Bullen and Dr.O'Donnell the Superintending Medical Officer very kindly went with me to the buildings referred to. Dr.O'Donnell and myself inspected the place carefully and he and I agreed that pending the building of the new Hospital,they would with some alteration make a very good Hospital. They are Situated on high ground and are very easy of access,being about the middle of the Fields.I would therefore strongly recommend that these buildings be taken up at once on a rental of Rs.80/- per mensem which, considering the difficulty that obtains on the Gold Fields for house accomodation is extremely moderate. The rooms will certainly require some alterations in the way of repairs to floors and white washing etc before they are suitable for Inpatients, and I have asked the Sanitary Inspector to have an estimate prepared. What the exact amount will be, I am unable to say, but I am quite sure that a sum of Rs.1000/- will cover all expenses. The most expensive part will be the flooring, as Cuddappah slabs

slabs will be necessary. I suggested to Mr. Bullen the Land-lord, that he should do the alterations and charge a higher rental, but he said he would prefer that Government should bear the cost, and he would only charge the same rent as he was getting now, which I have already said is absurdly small.

4. I have therefore the honor to request that very early sanction may be accorded as it will be necessary to give a months notice to the people at present living in these quarters.

I have the honor to be,

Sir,

Your most obedient servant,

Lt. Col: I.M.S

Senior Surgeon and Sanitary Commissioner with the Mysore Government.

Letter No.3288 dated the 7th February 1901, from the Senior Surgeon and Sanitary Commr with the Govt of Mysore, requesting that, as it will be some 18 months before the Hospital and suitable quarters for the Civil Surgeon at the Kolar Gold Fields can be completed, and as the subject of affording medical aid to the people at the Gold Fields is a pressing one, sanction be accorded to his engaging certain private buildings at Urugam at a monthly rent of Rs.80, for the Hospital and for the residence of the Civil Surgeon, and to a sum of Rs.1000, required for making certain alterations to the same so as to adapt them for the purposes intended.

Precaution 9/12/07

No 10938-41 dt 2-2-07 No 2994

ORDER THEREON.- Government observe that although Mr Krishnasamy Iyer was appointed Civil Surgeon, Kolar Gold Fields, more than 6 months ago, no accommodation either for a Hospital or for his residence has as yet been provided. The necessity for opening a Hospital at the Gold Fields is clear, and it is desirable that Mr.Krishnasamy Iyer should be sent as early as possible to do work as Civil Surgeon of the Gold Fields.

2. Pending the construction of a suitable Hospital and Medical Officer's quarters, a question which will be referred

47

ferred to the Public Works Department for early consideration – the buildings reported to be available may be rented as proposed by the Senior Surgeon. The repairs (other than Cuddappa slab flooring which may be dispensed with) may be done, after the buildings are taken possession of

3. The present dispensary at the Gold Fields should be dispensed with from the date the Hospital is opened, and Mr. Ranganna transferred to some other place, a report to that effect being submitted to Govt.

4. It is observed that in addition to the rent payable for the buildings proposed to be hired, the Senior Surgeon does not report what additional expense is involved in the scheme. He will accordingly be requested to submit a regular proposition statement and to report how he proposes to meet any extra charge for establishments as well as the rent &c.

5. Government consider that the best plan under the circumstances would be (a) to engage the buildings above referred to causing, say, two months' notice given to the present occupants, (b) to have the repairs executed in another month, and (c) to open the Hospital on the first day of the official year 1901-1902, all necessary provision being made for it in the Budget for that year

6. The plan for the Medical Officer's quarters submitted by the Senior Surgeon with his letter No.309 dated the 10th October 1900 will be forwarded to the Chief Engineer to be dealt with along with a project for the Hospital building

required at the Gold Fields.

Sir

I have the honor to represent that I have not yet been able to secure suitable house accommodation for myself in Kolar Gold Fields.

The Travellers Bungalow — Champion is the only convenient building near enough to the present Dispensary and the block of buildings that have been selected for the new Hospital to be opened ~~for~~ on the 1st April 1901.

The buildings in Stevens's Camp that are to be rented for the Hospital purposes ~~for~~ are among those

Sir-

fit for my occupation. Nor are the present Dispensary buildings suitable for the accomodation without considerable alterations and some additions.

Under these circumstances I request you will kindly address the Government to close the Travellers Bungalow to the public and make it my quarters.

At present there is no necessity for a Travellers Bungalow on the fields. A new hotel has been in existence for some months now. Moreover there is a Inspection Lodge which can be utilized by the Government Officers that visit the fields on duty. I request you will kindly give this matter your early attention as I am in great need of suitable house accommodation.

With reference to your memo.
No. 13706/2 dated 13th April 1901,
Mis: 3550
I have the honor to state that I
would premise my answer by
mentioning, that in my opinion
it would have saved much useless
correspondence, if Mr Krishnaswami
Iyer had addressed the Senior Surgeon
through me, seeing that I am in
charge of the Travellers Bungalows
and personally supervise the
Plague

Plague administration of this

District.

At present there is a regret-
-able want of accommodation
on the Kolar Gold Fields not only
as regards the Civil Surgeon, but
also in connection with the Officers
of all other Departments. The
Superintendent of Police is occupying
a bungalow kindly lent by the mining
authorities; the Excise Supervisor is
living at Bowringpet and the Sanitary
and Detective Police Inspectors each
occupy a room in the Travellers'
Bungalow.

Besides this when I am at
the Gold Fields the only available
room in which I can hold my
Court and in which my Camp
Clerks can work, is another room
of the same Travellers Bungalow.—
Mr. Krishnaswamy Iyer occupies the
only

only remaining room of this Bungalow and has the exclusive use of the Brahmin Kitchen and bath-room.

Under these circumstances, and until the Detective Quarters are Completed - probably within another month - it will be impossible to allow Mr. Krishnaswami Iyer another room in the Travellers Bungalow.

Superintending Engineers no. 1329 of 19th instant, communicating Chief Engineers no: 2190 of 19th idem, and asking for certain informations in connection with the Travellers Bungalow at Gold Fields.

With reference to the above has the honor to state that no II Sub Divisional officer in his no: 183 of 24th instant, has reported that the daily number of travellers who have used the Travellers Bungalow on the Gold Fields during the past 3 months are

are 11 in January, 8 in February, 7 in March 1901 and only one in this month up to date

Of the 4 rooms in this building it is reported that one is occupied by Mr Faiman, Sanitary Overseer since the beginning of this month the 2nd by Mr Subbiah, the detective Police Inspector for the last 5 months. the 3rd by the Deputy Commissioner to hold his office whenever he is on the fields and the remaining one by Mr Krishnaswamy Iyer Civil Surgeon since his arrival on the fields

The new hotel is situated in the new-town and there are no proper roads from any of the Railway stations except from Balaghat which is about 2 miles away

Under these circumstances the undersigned is of opinion that it will be inconvenient for the travelling public if the whole building is closed for public

Dated 5th June 1901.

Sir,

In reply to your No. 13706/Mis.3549 of 13th April 1901, I have the honor to state that although I made many enquiries on the subject I found that without a personal inspection of the Fields I could not make a satisfactory representation on the matter to Government. I accordingly visited the Fields on Saturday 1st June , and accompanied by Dr. O'Donnel Chief Surgeon to the Mines and by the Civil Surgeon Kolar Gold Fields area I inspected the buildings it is proposed to use as a Hospital pending the building of a new Hospital.

2. The Bungalow referred to in your number above quoted, is quite near the proposed hospital buildings and is suitable for a temporary residence for the Civil Surgeon. It requires little or no repairs. The rent is Rs.20/- per mensem. All the buildings except this Bungalow have been handed over to the Civil Surgeon, this one will be so also in a day or two. Of the buildings thus handed over the main block is to be the hospital and out-patient dispensary; the buildings just opposite are for the hospital servants; a building close to this will do for the Hospital Assistant; and a small house a little to the rear of these will do for a Mortuary.

3. I am writing to the Public Works Department asking them to make the roofs everywhere water tight, to whitewash the entire building, patch up the floors where necessary, and connect the buildings by properly cleared pathways.

4 In regard to furniture, I have the honor to request sanc-

tion

85

sanction of Government to my getting good furniture so that when the new hospital is built the furniture will be available for it. It will be a waste of money to buy rubbishy things now however cheap, and then find no use for them in the new hospital.

4. I request sanction of Government also to the conversion of the present Kolar Gold Fields Dispensary into a small Maternity for the Fields, to be in charge of the Lady Doctor. It is well suited for this purpose:-

Fair accomodation, very clean, very airy, and very suitably situated.

Dated 15th July 1901

Sir,

In continuation of my letter No.3846 dated 5th June 1901 reporting on the buildings in the Gold Fields it was proposed to rent as a temporary hospital, I have the honor to say, that a difficulty has arisen in regard to that portion of those buildings it was intended should be occupied by the Civil Surgeon. This portion is occupied by the European Chief Constable of the Gold Fields, and is rented by the Police Department. Although due notice was served he declines toleave the house, no other suitable building having been as yet provided for him.

I have the honor to request that very early steps be taken by the Police Department to provide this Chief Constable with quarters elsewhere. It forms an integral part of the buildings to be used for hospital purposes, and is the only building at all suitable for the Civil Surgeon, either as regards accommodation or site.

No. 763
Dated 26 July 1901.

Sir,

I have the honor to report that I visited Kolar Gold Fields to-day.

2. Cholera has been rather prevalent there, and plague in a sporadic form.

3. The mining authorities have made a fairly free distribution of good water providing stand pipes and taps, but the people prefer to take the water direct from the open tanks, and these of course are liable to pollution. I examined several of the affected localities with Dr.O' Donnell, and actually saw a woman draw water from an open tank though, to get there, she must have passed from taps of good water kept constantly running. The tanks have guards on them, but the guards are not always present. I pointed out the desirability of fencing in the tanks.

4. Last year when I visited these Fields in connection with the opening of a new village, I pointed out the danger of doing so before a proper supply of water was laid on. The proposal then was to sink several wells for the use of the new town. I pointed out the extreme danger of open wells. I now repeat that such a method of supplying the new town with water is fraught with the greatest danger, and I venture to predict, that if it is carried out there will be an epidemic of cholera there compared to which any thing that now occurs is a mere trifle

5. Stephen's camp is nearly ready for occupation as a temporary hospital. But the European Head Constable still occupies

the

the house it was intended should be given to the Civil Surgeon. In my letter No. 406 dated 15-7-01, I requested that early orders should issue to the Police Department to provide this constable with quarters elsewhere. The Civil Surgeon still occupies a part of the Traveller's Bungalow with a good deal of inconvenience to himself, and too far from the hospital.

Dear Sir

Yours of 27th ult. has been referred to me for the civil Surgeon who has been handed over to me for the temporary use. It is my conviction for the temporary hospital, but useless for the new hospital being built for among [illegible] the proposed new hospital. Besides it is really not a very desirable house for an officer of the rank of Civil Surgeon – though it does very well as a temporary expedient

Dated 4th September 1901

Sir,

In forwarding the marginally noted copies of correspondence I have the honor to state, that the two buildings which it now appears were alone rented by Col.Benson are quite inadequate for the purpose of a hospital including habitation for Servants, Dead-house etc. The other buildings now under reference with the Superintendent of the Mine are absolutely necessary for the working of the hospital. But their acquisition entails a further charge of Rs.40/- per mensem, that is a total rental of Rs.120/-? instead of Rs.80/-, the sum sanctioned by Government in their order No. 10938-44 dated. 20th February 1901.
m2974

I have the honor to request that the enhanced rental be sanctioned by Government. The collective buildings included under this enhanced rental will make a very commodious little Hospital indeed.

I have twice personally inspected them, and they will form a hospital which under the superintendence of Mr. E.S.Krishnasawmy Iyer should prove a great boon to the community it is intended to serve.

Sir

I have the honor to the bill submitted for the rent of Stephens Camp to say, that I think the amount a great deal too high, when one Considers that with the exception of the main block and the house occupied by the Police

Sergeant, the other buildings were mere ruins
and that when it comes to handing them back
to you a year hence they will all be in excellent
repair, effected at a very considerable outlay
by the Government of Mysore, the excessive
rent you make becomes all the more apparent.
As the two main buildings which (it now
appears) were alone intended to be taken up for
Hospital purposes have cost a very considerable
sum for repair. Under these circumstances and
considering as I have said, that when the
buildings are handed over to you on the opening
of the new Hospital, they will form a really
valuable property. I hope you will be able to see
your way to making no extra rent charge
for the out building but will rent the whole Camp
for Rs 80-0-0.

Dear Sir

I am in receipt of your letter, No: 1208, the 14th instant and am surprised that you suggest a reduction in the rent Considering that the price was arranged before the buildings were taken over, and that I was promised the same rent as we were receiving from the people who were occupying the buildings. These people were perfectly satisfied with their quarters and would willingly have paid an increased rent to be allowed to remain where they were, but to oblige Government we put the Champion Reef mine and our other tenants to considerable inconvenience by requesting them to leave the buildings, which have been taken over by Government, and it is altogether unreasonable to suggest that we should reduce the rent. If Government does not require the buildings I will have no difficulty whatever in letting them again to others, but on no account will I take less than the sum stipulated for.

Sir,

Your letter of 17th August 1901 re
garding rent of Stephens Camp.

I have the honor to point out
as in my letter no. 1208 dated 14.8.01. I
did not ask for no reductions of rent that was promised

The only buildings you were actually

habitations, and the adjoining house recently occupied by the Police Sergeant, and I feel quite confident when you are good enough to promise to let Col: Benson have those two houses for hospital purposes at Rs 80/- per mensem, Col: Benson thought the old houses adjoining would accompany them (for the same rent); you see they are simply the out-houses belonging to these two dwelling houses. When one rents a dwelling house at a certain rent, the out-buildings are of course included in that rent.

4. I dont undervalue your kindness obliging the Mysore Government with the temporary use of these houses but I am, of course bound to see that the terms of the agreement are carried out.

Dear Sir,

I am in receipt of your letter no. 48 of the 24 Instant, and note your remarks with reference to these buildings which you cribe as old ruins and out houses in connection with the two buildings which Colonson arranges to take over from this Company.

The out houses in connection with these uildings viz; the Cook houses, &c. have been nded to you free of charge, but you can arcely class the Companies office and Store, tray house, Fitting Shop, Blacksmiths hop, Carpenters Shop, &c as out houses ached to these buildings merely because y are situated on the same property; and we have drawn rent for several years m the people who occupied these different uildings, I must insist upon your paying r them now, I had at Christmas many days since strict promise that the rent would be paid herwise I would never have ejected my tenants.

Tenants

you cannot reasonably expect this Company to be put to a pecuniary loss merely because we wished to oblige the Government of Mysore by lending them our houses. It would have saved me a great deal of trouble and annoyance had I refused to help Sir Benson when he first approached me on the subject, and I regret that I did not insist upon having the money paid in advance as hitherto had been the Custom

Yours &c.

Inspector Generals' No - 759/35 of the 1st instant
regarding the building occupied by Chief
Constable Mr. Rice in Stephens Camp, Mari-

that the only arrangement possible is that the
Chief Constable should occupy the room in
the public Bungalow that has been occupied
by Dr Krishnaswami Iyer - I cannot help
saying that as regards this building there has
been an extreme want of official Courtesy
somewhere. The Darbar had sanctioned our
occupancy on payment of rent to the Boregaum
Mine some years ago. We are now suddenly -
ejected without being consulted in regard to the
Hospital scheme, and it seems to me quite possible
that the Darbar when sanctioning this scheme was
not aware that the building alluded to, was already
occupied with its sanction by the Police Department,
or I feel sure we should have been consulted

The arrangements above suggested, will be carried into effect in anticipation of your sanction. I am not aware of any other place where a European could live

SIR,

In compliance with your docket No. I4585/Mis.26-94 dated 4th March 1902,I have the honour to forward the accompanying project amounting to Rs.63,234/-.for constructing Hospital and Quarters for Medical Officers at the K lar G ld Fi ld, to inform you that before scrutinizing it,it is necessary to decide on the point raised by Dr: B ase's letter N .(II dated 18th Ma ch 1902,(copy enclosed) in which he records his opi ion that the buildings appear to im be too costly for the place, the am assigned by him.

2. It will be seen from the Superintending Engineer's covering letter (copy enclosed) that the project provides for all requirements as intimated by Dr: Smyth, when officiating as Senior Surgeon,but judging from the experience of the Victoria Hospital at Bangalore,it seems that many more buildings will be required, such as,Matron's Quarters,Nurses' Quarters. Besides,furnishing lighting &c will have to be considered. I should say that the buildings will cost nearly Rs.80,000/- to complete.

I have the honour to be,

Sir,

Your most obedient servant,

D. Mc Campbell Colonel,
Chief Engineer of Mysore.

With reference to your letter

the honour to return herewith ~~the~~
plans and estimates for the pro-
posed Hospital and the Civil
Surgeon's quarters &c at the Kolar
Gold Fields and to state that
it appears to me to be too costly
a building for the place. The
mines cannot last for ever
and when they are exhausted
there will be no need for the
Hospital and it is not as if it
were a building that belongs to
a project bringing in revenue
like the power scheme

Letter No 3076 dated 1st July 1902 from the Superintending Engineer Eastern Circle to the Chief Engineer of Mysore.

Adverting to your Nos 5988 of 16-11-01 and 1326 of 6-3-02, I have the honour to forward for favour of your disposal, a project amounting to Rs 63,234 for constructing a Hospital at the Kolar Gold Fields.

The project provides for all requirements as intimated by Lt Col J Smyth in his capacity as officiating Senior Surgeon and Sanitary Commissioner and has been countersigned by Lieut Col F H Benson

3 In countersigning the project however the Senior Surgeon in his No 5711 of 18-6-02 (copy enclosed) observes that "it appears to me to be too costly a building for the

place &c." But these are not points for me to comment on as Colonel Benson has countersigned the project and as the provision made is such as was intimated to me by Colonel Smyth as necessary for this large and, as I understand rapidly increasing town.

4 The report attached to the project deals thoroughly with all the points and the rates provided are those prevailing on the Fields.

5. The site plan which was forwarded to the Senior Surgeon in May last, for countersignature has not yet been returned. It will be submitted directly it is received back from that officer with any remarks that may be necessary.
